Where Design Meets Depth & Power

Immerse into a new realm of perfect audio pairing with the **GM-DC971** and **TS-W3004D4**. Elevate your audio experience as they unleash deeper bass and high loudness, perfectly complementing the Champion Series PRO lineup for an unparalleled level of bass performance.

Designed with Every Detail in Mind

Both the **GM-DC971** and **TS-W3004D4** have been meticulously crafted to deliver exceptional performance with every detail considered. Pairing both Champion models together, it incorporates a High Performance Motor Assembly, Dual-Layer Reinforced Surround and Special Bass Boost adjustment that helps to deliver amplified loudness and deeper bass, a Optimized Enclosed Basket, and High-capacitance Capacitors to deliver outstanding bass reproduction and stunningly high power output of 2400W MAX. Every Champion models are designed with a unified Honeycomb Structure that exudes toughness and high durability.

Dual-Layer Fiber-Reinforced Elastic Polymer Surround & Dual Spider System
(ensuring enhanced power endurance handling of 2400W MAX performance output)

Enclosed Basket with Air Ventilation Duct
(optimized structure supporting bass reproduction & heat dispersion)

Unified Honeycomb Structure
(a robust polyhedral structure that exudes toughness)

Oversized Motor Assembly with Double-Stacked Magnets & Extended Voice Coil
(Powerful motor driver with largest magnet integrated in it class)

Multiple High-capacitance Capacitor
(supporting high output by stabilizing power supply)

Special Bass Boost
(sound tuning customized to Champion series)

Precision Class-D Driver Amp
(precision amp for deeper, louder & clearer playback)

"Move the Heart and Touch the Soul"
